

**COVID-19
GOLDEN COMMUNITY CENTER
March 11, 2020**

Golden Community Center Guests:

We recognize that we are a gathering place for residents and visitors participating in our classes, programs and events. The health and safety of everyone who comes in this facility is of utmost importance to us. With the recent outbreak of COVID-19 in the United States and especially with reported cases here in Colorado, we are taking steps to ensure that we are protecting our patrons and staff with the most current and up to date information possible.

The wide variety of activities in the building dictate different needs in different spaces. We are closely monitoring information on COVID-19 from the Centers for Disease Control (CDC) and the Colorado Department of Public Health & Environment (CDPHE).

Fact sheets from CDPHE are available at the facility. Additional hand sanitizers have been placed throughout the building. We are cleaning and disinfecting public contact areas at increased intervals. We now provide prepackaged snacks in the Front Porch instead of bulk distribution. We have procedures in place to keep sick employees home and away from the workplace. We will continue to monitor information from CDPHE regarding recommendations on operations of public facilities and possible closures.

Taking everyday actions to protect yourself is the most effective way to reduce your risk while you're here. These include frequent hand washing with soap and water for at least 20 seconds, utilizing our numerous hand sanitizer stations located throughout the building, avoiding touching your eyes, nose or mouth with unwashed hands, staying home if you're sick and thoroughly cleaning weight room equipment both before and after each use.

For more information about preventing the spread of illness, visit www.cdc.gov/coronavirus or www.colorado.gov/cdphe

We are committed to making sure your Golden Community Center experience is as safe and healthy as possible. Thank you for your individual diligence and understanding.
